New Haven Sept. 8. 1841

My dear Brother

Brother Charles has received your letter from Northampton — we suppose you are therefore now at home —

It was our expectation to have gone to New York this week but in consequence of Willie's sickness we were detained from making our visit at Southington as early as we intended. We went on Thursday & returned on Monday — but I have some few things to prepare before leaving here — & it is doubtful whether I should be ready to go earlier than Monday — Monday therefore, is now the day proposed (if the weather is favorable) for leaving here — but if we should conclude to go sooner — I suppose you would receive us —

We had a very agreeable visit at Southington & were kindly & hospitably entertained at Mr Whittlesey's — They spoke of your recent visit & seemed to have been much gratified — Doct Barnes furnished us a conveyance to Farmington where we spent one day very pleasantly —

Our little Willie is very much better & seems again quite like himself — Nancy is not well & she has much anxiety & care for her sister Julia who is very sick. — The family are apprehensive that her sickness will terminate fatally — Mrs Whittelsey has also been very ill — but is now convalescent

All send love In haste your affectionate sister

Elizabeth

I forgot about that business with Mr Lowrey until I saw him but I then spoke to him & he wrote to Charles about it — C— said he should attend to it.
